

## TABLE OF CONTENTS

ABSTRACT.....	iv
ABSTRAK.....	v
STATEMENT OF ELIGIBILITY.....	vi
DECLARATION.....	viii
ACKNOWLEDGMENTS.....	ix
TABLE OF CONTENTS.....	xi
TABLE OF FIGURES.....	xiii
TABLE OF TABLES.....	xiv

### CHAPTER I:BACKGROUND

1.1 Background.....	1
1.2 Problem Formulation.....	3
1.3 Research Objectives.....	4
1.4 Research Benefits.....	4
1.4.1Theoretical Benefits.....	4
1.4.2Practical Benefits.....	4

### CHAPTER II: LITERATURE REVIEW

2.1 Previous Researches.....	5
2.2 Theoretical Basis.....	6
2.2.1Tumeric ( <i>Curcuma domesticaVal.</i> ).....	6
2.2.2 Honey Multiflora.....	8
2.2.3 <i>Salmonella typhi</i> Bacteria.....	12
2.2.4 <i>Bacillus cereus</i> bacteria.....	17
2.2.5Cloramphenicol Antibiotics.....	18
2.2.6Extraction.....	19
2.2.7The Identification Of Bacteria.....	21
2.2.8Antimicrobial Power Testing Methods.....	22
2.3 Conceptual Framework.....	25
2.4 Research Hypothesis.....	26

## CHAPTER III: RESEARCH METHODS

3.1	Research Location and Time .....	27
3.2	Research Tools and Materials.....	27
3.3	Research Design.....	28
3.4	Research Procedure .....	30
3.4.1	DeterminationofCrops .....	30
3.4.2	Material Setup and Preparation .....	30
3.4.3	Turmeric Rhizome Extraction Process.....	30
3.4.4	Phytochemical Screening for Turmeric Extract ( <i>Curcuma domestica Val.</i> ).....	31
3.4.5	PH test On Multiflora Honey .....	32
3.4.6	Equipment Sterilization.....	32
3.4.7	Material Sterilization.....	32
3.4.8	Making Concentration of Turmeric ( <i>Curcuma domestica Val.</i> ) And Honey Multiflora .....	32
3.4.9	Negative Control Manufacture .....	33
3.4.10	Gram stain of <i>Salmonella typhi</i> and <i>Bacillus cereus</i> .....	34
3.4.11	Suspensions Of <i>Salmonella typhi</i> Bacteria And <i>Bacillus cereus</i> .....	35
3.4.12	Antibacterial Testing.....	35
3.4.13	Measurement Of The Barrier Zone .....	36
3.5	Analysis Data .....	37
3.6	Systematics Discussion .....	38
3.6.1	The effectiveness of turmeric extract combination ( <i>Curcuma domestica Val</i> ) and Honey multiflora in inhibiting the growth of <i>Salmonella typhi</i> bacteria and bacterial <i>Bacillus cereus</i> in vitro .....	38
3.6.2	The power of turmeric extract combination ( <i>Curcuma domestica Val</i> ) and honey in <i>Salmonella typhi</i> bacteria and bacteria <i>Bacillus cereus</i> in vitro .....	38

## CHAPTER IV: RESULTS AND DISCUSSION

4.1	Determination of Turmeric ( <i>Curcuma domestica Val.</i> ) .....	41
4.2	The extraction of turmeric plants ( <i>Curcuma domestica Val.</i> ).....	41
4.3	Turmeric Phytochemical Screening ( <i>Curcuma domesticaVal.</i> ).....	42
4.4	PH Test Multiflora Honey .....	44
4.5	Gram-negative and Gram-positive painting .....	44
4.6	The effectiveness test of Tumeric Extract Combination ( <i>Curcuma domestica Val.</i> ) and honey Multiflora in inhibiting the growth of <i>Salmonella typhi</i> bacteria .....	45
4.7	Effectiveness Test of Combination of Turmeric Extract ( <i>Curcuma domestica Val.</i> ) And Honey Multiflora in Inhibiting the Growth of <i>Bacillus cereus</i> Bacteria .....	48
4.8	Greatest Inhibition of Combination of Turmeric Extract ( <i>Curcuma domestica Val.</i> ) And Multiflora Honey in Inhibiting the Growth of <i>Salmonella typhi and Bacillus cereus</i> Bacteria In Vitro .....	51

## CHAPTER V: CLOSING

5.1	Conclusion.....	53
5.2	Suggestion .....	53

<b>REFERENCES.....</b>	<b>55</b>
------------------------	-----------

<b>APPENDIX.....</b>	<b>61</b>
----------------------	-----------

## TABLE OF FIGURE

Figure 2.1	Turmeric( <i>Curcuma domestica Val.</i> ).....	6
Figure 2. 2	Turmeric Rhizome ( <i>Curcuma domestica Val.</i> ) .....	7
Figure 2. 3	Curcumin Structure .....	7
Figure 2. 4	Apis mellifera bees .....	9
Figure 2. 5	Honey .....	10

Figure 2. 6 <i>Salmonella typhi</i> Bacteria.....	12
Figure 2. 7 Bacterial <i>Bacillus cereus</i> .....	17
Figure 2. 8 Chemical Structure Of Chloramphenicol .....	19
Figure 3 2 Research Design using RAL.....	28
Figure 3. 2 Measurement of barrier zone diameter against test bacteria	37

## TABLE OF TABLES

Table 2.1 :Clinical Diseases Caused by Salmonella.....	13
Table 2. 2 Classifications Of Bacterial Growth Barrier Response.....	22
Table 2.3. Conceptual Framework .....	25
Table 3. 1 How to create a combination concentration of turmeric extract ( <i>Curcuma domestica Val</i> ) and Honey Multiflora .....	33
Table 4.1 Turmeric( <i>Curcuma domestica Val.</i> ) Extraction Randemen results .....	42
Table 4. 2 Screening results Phytochemistry of turmeric extract ( <i>Curcuma domestica Val.</i> ) .....	44
Table 4. 3 Results of inhibition zones of a combination of turmeric extract and multiflora honey on the growth of <i>Salmonella typhi</i> bacteria ..	46
Table 4.4 Inhibition Zone Criteria According to CLSI .....	47
Tabel 4.5 Results of inhibition zones of a combination of turmeric extract and multiflora honey on the growth of <i>Bacillus cereus</i> bacteria.....	49
Table 4.6 Inhibition Zone Criteria According to CLSI .....	51
