

**APPROVAL SHEET
THESIS DEFENCE**

It is hereby stated that the thesis with the title :

**THE EFFECT OF GARGLING USING A SOLUTION OF
TRIGONA HONEY ON BACTERIA ON DENTAL CARIÉS
AND *Candida albicans* ON THRUSH**

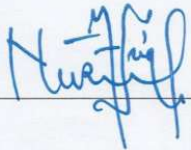

Written by:

**Elya Nur Sulistiani
402019718046**

It has been reviewed and recomended to meet scientific standards, in terms of both scope and quality.

Mentor 1

DECLARATION

I hereby,

Name : Elya Nur Sulistiani
Registered Number : 402019718046
Faculty : Health Sciences
Department : Pharmacy
Title : The Effect of Gargling Using A Solution of
Trigona Honey on Bacteria on Dental Caries and
Candida albicans on Thrush.

I sincerely declare that this thesis originally belongs to my own work and not belongs to other researchers for different degrees. Furthermore, this thesis is never published before, except for some parts with their original references.

Otherwise, if it finds that this thesis is plagiarism, I am ready to be ceased academically.

PREFACE

Assalamualikum Warahmatullahi Wabarakatuh

Alhamdulillahirabbil'alamin, Praises to Allah Almighty for all His mercy and guidance so that this thesis can be completed as expected. Shalawat and salaam, always been recited to the Prophet Muhammad SAW. This thesis entitled "THE EFFECTS OF GARGLING THE MOUTH USING A SOLUTION OF TRIGONA HONEY ON BACTERIA IN DENTAL CARIES AND *Candida albicans* ON THRUSH" was proposed as one of the conditions that must be done by students to obtain a bachelor's degree in Departement of Pharmacy at the Faculty of Health Sciences, University of Darussalam Gontor. The author would like to thank those who have provided their support and assistance in completing this thesis, namely:

1. Prof. Dr. K H Hamid Fahmy Zarkasyi. M.A., M.Phil rector of University of Darussalam Gontor. Dr. Abdul Hafidz Zaid, M.A. Vice Rector I of University of Darussalam Gontor. Dr. Setiawan Bin Lahuri, M.A. Vice Rector II University of Darussalam Gontor.
2. apt. Amal Fadholah, S.Si., M.Si. Dean of the Faculty of Health Science, University of Darussalam Gontor and apt. Kurniawan S. Si, M. Farm. Head of Departement of Study Program, University of Darussalam Gontor.
3. Nurul Marfu'ah M.Si., as the main supervisor and apt. Nadia Iha Fatihah, S.Farm., M. Clin. Farm as the second supervisor who has provided a lot of knowledge, time and advice during the research and thesis writing so that the thesis could be completed well
4. All Lecturers, Education and Administrative Staffs of the Departement of Pharmacy who have been willing to give a knowledge, guide and provide debriefing during the lecture process until the final thesis project.
5. Both Parents, Mr. Eman Surahman and Mrs. Lela Rustita, the entire extended family, as well as the closest relatives of Isnaeni Assyifa,

Nabila Zahra, and Najiyullah who have given their motivation and support always.

6. Friends, especially pharmacy class of 2019, University of Darussalam Gontor and fellow student of dormitory of Fatimah Azzahra especially Nuri anjayani, Dwi lestari, Niken arda, dan Eldyamarta.
7. Friends of the scriptimate Syafilla destyana, Wahyu mursyidah, Khovifah indar, Honest fatimatuz zahro, Tri novitasari and Yunafrida shelly .
8. To all parties who cannot be mentioned one by one who have helped the process of this thesis and provided prayers, support, and encouragement to the author.

The author realizes that during the research and preparation of this thesis there are many shortcomings. Constructive criticism and suggestions are indispensable in order for this thesis to be better. Hopefully, this thesis can provide benefits and inspires many readers. Aamiin Yaa Rabbal'amin Wassalamu'alaikum Warahmatullahi Wabarakatuh.
