

FOREWORD

Assalamualaikum Warahmatullahi Wabarakatuh.

All praise and thanks are due to Allah SWT who has given His grace and guidance to all of us so that the author can complete this thesis entitled "**Analysis of the Relationship between Knowledge Level and the Use of NSAIDs for Dysmenorrhea in Students of Darussalam Gontor University**". Sholawat and salam do not forget to send to the Prophet Muhammad SAW, whom we always look forward to his intercession on the last day. Writing this thesis is a requirement for obtaining the degree of Bachelor of Pharmacy (S. Farm) in the Pharmacy Study Program, Faculty of Health Sciences, Darussalam Gontor University.

In writing this thesis, the author received a lot of help, guidance, encouragement and support from various parties. The author would like to take this opportunity thanks to:

1. Prof. Dr. Hamid Fahmi Zarkasyi, M.A., M.Phil. as Rector of Darussalam Gontor University, Dr. Abdul Hafidz Zaid, M.A. as Vice Rector I of Darussalam Gontor University, Dr. Setiawan bin Lahuri, M.A. as Vice Rector II of Darussalam Gontor University, and Dr. Khoirul Umam, M.Ec. as Vice Rector III of Darussalam Gontor University.
2. Apt. Amal Fadholah, M.Si. as Dean of the Faculty of Health Sciences, Darussalam Gontor University.
3. Apt. Nadia Iha Fatiha, M.Clin. Pharm. as the Head of the Pharmacy Study Program at Darussalam Gontor University.
4. Nurul Marfu'ah, S.Si., M.Si. as supervisor 1 and Anugerah Suciati, M.Farm. as supervisor II who have guided and provided advice, so that the author can complete the preparation of this thesis.
5. Mahmud Carica, M.Farm. as the examiner who took the time to provide input in improving this thesis.
6. All lecturers, especially in the Pharmacy Study Program, who have provided knowledge while studying at UNIDA Gontor.
7. Dr. Suyanto, S.Ag., M.M. as Director of the Directorate of Boarding Schools at Darussalam Gontor University, class C, who has given permission to conduct research.

8. Mr. Muhammad Ja'far, Mrs. Suciati, and my beloved extended family have made the author arrive at this stage. Thank you for your prayers, affection, patience, sincerity, attention, and support both materially and prayerfully, so that the author can complete this thesis.
9. Friends in the Bachelor of Pharmacy Class of 2021 who have always been together both joy and sorrow for 4 years who have helped provide input, enthusiasm and support until this research can be completed.

May Allah SWT give His blessings and guidance to all of us. The author realizes that the making of this thesis is far from perfect. Therefore, the author expects constructive criticism and suggestions from various parties. Finally, the author hopes that this thesis can be accepted and is useful for the development of science, especially in the field of pharmacy.
