## ACKNOWLEDGMENT

*Bismillahirrahmanirrahim*

*Alhamdulillah Rabbi-I- 'alamin*

All praise and gratitude to Allah SWT who has given His grace and guidance and the abundance of infinite wisdom given to the author, for all the convenience given so that the author can complete the compilation of the thesis entitled "Evaluation of Antibiotic Use with the Gysens Method in Urinary Tract Infection Cases of Inpatients at Dr. Moewardi Hospital". This thesis was compiled to complete the final assignment and graduation requirements for the Bachelor of Pharmacy Education Program, Darussalam Gontor University.

In compiling this thesis, the author received a lot of help, guidance, encouragement, and support from various parties, and on this occasion the author would like to express his gratitude to:

1. Father and Mother, as well as the extended family of Bani Toha Asyari and Bani Radjikan who have prayed for and become tireless encouragement with full love and affection.
2. Al-Ustadzah apt. Satwika Budi Sawitri, S.Farm as the thesis supervisor who has guided and directed in the thesis research.
3. Al-Ustadzah apt. Nadia Iha Fatihah, M.Clin.Pharm as the thesis supervisor who has guided and directed the thesis research
4. Al-Ustadz apt. Amal Fadholah, M.Si as the examiner who has provided guidance, support, advice, criticism and suggestions in developing the thesis.
5. All lecturers at Darussalam Gontor University who have helped in compiling the thesis.
6. The Training, Medical Records, Pharmacy Installation and Administration Section of Dr. Moewardi Regional General Hospital for all their assistance and cooperation in conducting research.
7. Fellow Pharmacy Students of 2021 who have supported and motivated in compiling the thesis.

8. Dear friend since 2013, Suci Rahmadiani and Hasna Imtinan, beloved Mantwo friends, YGGA team, and good friends who always pray and are loyal to be a support system in any situation.

The author realizes that in writing this thesis is still far from perfect due to the limitations of the author's abilities and experience. Therefore, the author openly accepts constructive criticism and suggestions for the perfection of this work in the future.

Finally, the author hopes that this thesis can provide benefits, especially for the development of pharmaceutical science and practice in the field of Health, and become a useful reference for readers
