ACKNOWLEDGEMENT

All praise be to Allah Subhanahu wa Ta'ala, who has bestowed His grace, aid and guidance so that the author can complete this thesis entitled “**ANALYSIS OF DRUG RELATED PROBLEMS (DRPs) IN PATIENTS WITH ARI BRONCHOPNEUMONIA INPATIENTS AT TIDAR MAGELANG HOSPITAL**”. Shalawat and greetings are always poured out to the Prophet Muhammad Shallallahu 'alaihi wa sallam, along with his family, friends, and all the people who follow in his footsteps until the Day of Judgment.

The preparation of this thesis is one of the requirements for completing studies in the Bachelor Program (S1) in Pharmacy at the Faculty of Health Sciences, University of Darussalam Gontor. Inevitably, this thesis will not be completed without the help, support, and guidance of various parties. Therefore, with all humility, let the author express his deepest gratitude to:

1. Al-Ustadz Prof. Dr. Hamid Fahmy Zarkasyi, M.A., M.Phil., as Rector University of Darussalam Gontor Dr. Abdul Hafidz Zaid, M.A., as Vice Rector IV Royyan Of University of Darussalam Gontor Dr. Setiawan bin Lahuri, M.A., as Vice Rector II of University of Darussalam Gontor; and Dr. Khoirul Umam, M.Ec., as Vice Rector III of University of Darussalam Gontor-
2. Al-Ustadzah apt. Fauziyyah Al Hasanah, M.Pharm. as supervisor 1, for providing valuable input, advice, and direction during the process of preparing this thesis.
3. Al-Ustadzah apt. Nadia Iha Fatihah, M.Clin.Pharm., as the Head of Departement od Pharmacy at University of Darussalam Gontor-and Supervisor 2, whose availability, time, and guidance greatly helped the author in completing this thesis.
4. Al-Ustadz Apt. Amal Fadholah, S.Si., M.Si., as Dean of the Faculty of Health Sciences, University of Darussalam Gontor, and as an examiner who has taken the time to test the author and provide input for the sake of perfection in this thesis.
5. All lecturers and staff of the Faculty of Health Sciences, especially In Deartment of Pharmacy of University of Darussalam Gontor, for the knowledge and support provided during the study period.

6. Pharmacy Installation, Medical Record Department, and Education and Research Department of Tidar General Hospital for all their assistance and cooperation in conducting research.

7. Father, Mother, and extended family who never tired of giving prayers, sacrifice, love, and support, both morally and materially, as well as motivation to complete this thesis immediately.

8. Friends who have prayed, provided moral support and assisted while of writing this thesis.

9. Pharmacy 2021 comrades-in-arms who helped encourage the preparation of the thesis.

The author realizes that this thesis could be better, due to the limitations of the author's knowledge and abilities. Therefore, constructive criticism and suggestions are highly expected to perfect this work in the future. Hopefully, this thesis can provide benefits for readers and contribute to the development of science, especially in the field of Pharmacy and become a helpful charity in this world and the hereafter.
