DECLARATION

I hereby,

Name : Husna Qathrun Nada
Registered Number : 422021638016
Faculty : Science and Technology
Department : Agrotechnology
Title : Effect of Some Varieties and Irrigation Techniques on Plant
Growth and Root Morphology of Rice Plants Planted with
Trichoderma asperellum

I sincerely declare that this thesis originally belongs to my own work and not belongs to other researcher for different degree. Furthermore, this thesis is never published before, except some parts with their original references.

Otherwise, if it found that this thesis is plagiarism, I'm ready to be cased academically.

ACKNOWLEDGEMENTS

Alhamdulillahirabbil'alamin, all praise and gratitude go to Allah SWT, the Lord of the universe, for all the mercy, guidance and grace to us. With the grace and guidance, the author was able to complete the thesis entitled “EFFECT OF SOME VARIETIES AND IRRIGATION TECHNIQUES ON PLANT GROWTH AND ROOT MORPHOLOGY OF RICE PLANTS PLANTED WITH *Trichoderma asperellum*.”, which fulfills one of the requirements for completing my undergraduate studies at Darussalam Gontor University.

This thesis is the result of hard work, guidance, and support from various parties. The author would like to express her sincere gratitude to:

1. The Rector of Darussalam Gontor University Prof. Dr. K.H. Hamid Fahmy Zarkasyi, M.A.Ed., M.Phil. along with the ranks of vice rectors for support and direction during the author's studies.
2. Dean of the Faculty of Science and Technology of Universitas Darussalam Gontor Al-Ustadz Haris Setyaningrum, M.Si. who has provided various facilities and academic support.
3. Head of Agrotechnology Department Al-Ustadzah Mahmudah Hamawi, S.P., M.P. for the direction and encouragement given to the author.
4. The lecturers and academic advisors who have patiently provided knowledge, advice, and guidance in completing this thesis.
5. My friends, whose unwavering support, motivation and camaraderie have been invaluable throughout this journey.

6. My beloved family for their unwavering prayers, love and support have been my constant source of strength.

Hopefully all the help and support that has been given will be charity and get the best return from Allah SWT.

The author acknowledges that this thesis is not without its limitations. Constructive criticism and suggestions are welcome to further improve this work. It is hoped that this research will contribute to the advancement of knowledge in the field of science.

Mantingan, 19 Jumadil Awwal 1446 H
