AUTHORIZATION

DETECTION OF AEROMONAS HYDROPHILA BACTERIAL DISEASE IN
FRESHWATER FISH USING THE CONVOLUTIONAL NEURAL NETWORK METHOD

THESIS

Submitted to fulfill some of the requirements
to obtain a Bachelor of Computer Science degree

Compiled by :

Annisa Aghnia Nadhiroh

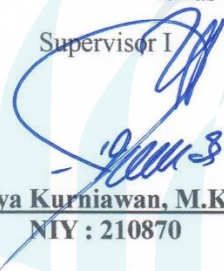

NIM: 422021618014

This thesis has been tested and passed on

February 8, 2025

It has been checked and approved by:

Supervisor I

Widya Kurniawan, M.Kom
NIY : 210870

Supervisor II

Triana Harmini, S.Pd., M.Pd.
NIY : 150450

Examiner

Dihin Muriyatmoko, S.ST., M.T
NIY : 150489

Known,

Head of Informatics Engineering

Dihin Muriyatmoko, S.ST, M.T
NIY : 150489

STATEMENT OF ORIGINALITY

I declare truthfully that to the best of my knowledge, in this thesis there is no scientific work that another person has ever submitted to obtain an academic degree at a university. No work or opinion has ever been written or published by another person except those cited in this manuscript and mentioned in the Bibliography.

Suppose it turns out that this thesis manuscript can be proven to contain elements of plagiarism. I am willing to have this thesis disqualified and the academic degree I have obtained (bachelor) canceled and processed by laws and regulations (UU No. 20 of 2023, Article 25 paragraph 2 and Article 70).

FOREWORD

Alhamdulillah, an expression of gratitude to Allah SWT, the ruler of the universe who has given the blessing of the opportunity to study. Sholawat and greetings are due to the Prophet Muhammad SAW, the messenger of Allah SWT, the giver of good news who has shown us the straight and bright path as we feel today. The author understands that what is written in this research is far from perfect, for all criticism and suggestions will be gladly accepted for the development and improvement of this research. This thesis cannot be separated from the role of various parties who have provided a lot of help, guidance, and encouragement, on this occasion the researcher would like to express his gratitude especially to:

1. Al-Ustadz Prof. Dr Hamid Fahmy Zarkasyi, M.A.Ed., M.Phil., as the Rector and all his staff, as well as all the lecturers of Universitas Darussalam Gontor who have educated the researcher.
2. Al-Ustadz Haris Setyaningrum, S.Si., M.Sc., as Dean of the Faculty of Science and Technology and its staff.
3. Al-Ustadz Dihin Muriyatmoko, S.ST., M.T., as Head of the Informatics Engineering Study Programme along with lecturers and staff who have motivated and provided direction for researchers in completing this thesis research.
4. Al-Ustadz Widya Kurniawan, M.Kom., as the first supervisor who has provided a lot of advice and advice in this research.
5. Al-Ustadzah Triana Harmini, M.Pd., as the second supervisor has directed and enlightened the research with great patience.
6. The researcher's family, especially Mum and Dad as parents who continue to pray in every worship for the smooth running of researchers in doing this research.
7. Comrades of the Informatics Engineering Study Programme, especially the Class of 2021 who supported and helped each other in completing this research. We face everything together even though it feels heavy.

8. All parties who have helped researchers until the completion of this thesis, may Allah SWT give the best reward for all the services and assistance that have been given.

On this occasion the researcher would also like to apologise and realise that this research still has many shortcomings. At the end of the word the researcher really hopes that this thesis can be useful and this knowledge provides blessings for all parties. Amen.
