

**APPLICATION OF THE NAÏVE BAYES METHOD IN AN
EXPERT SYSTEM FOR PREDICTING SUGARCANE PLANT
DISEASES**

THESIS

Presented to the University of Darussalam Gontor in Partial
Fulfillment of Requirements for Completing the Undergraduate
Program of Informatic Engineering

By:

STATEMENT OF ORIGINALITY

I declare truthfully that to the best of my knowledge, in this thesis there is no scientific work that another person has ever submitted to obtain an academic degree at a university. No work or opinion has ever been written or published by another person, except which are cited in writing in this manuscript and mentioned in the Bibliography.

Suppose it turns out that this thesis manuscript can be proven to contain elements of plagiarism. I am willing to have this thesis disqualified and the academic degree I have obtained (bachelor) canceled, and processed by laws and regulations (UU No. 20 of 2023, Article 25 paragraph 2 and Article 70).

ACKNOWLEDGMENT

All praise and gratitude are due to Allah SWT for His abundant blessings and guidance, enabling the completion of this thesis entitled “Application of Naïve Bayes Method in Expert System for Sugarcane Disease Prediction.” This thesis is submitted as a requirement for completing the study and achieving a Bachelor of Computer Science (S-1) degree in the Informatics Engineering program at Universitas Darussalam Gontor.

The preparation of this thesis would not have been possible without the assistance, guidance, and support of various individuals. Therefore, at this moment, I would like to express my deepest gratitude to:

1. Allah SWT for granting health and smoothness in completing this thesis.
2. Al-Ustadz Prof. Dr. K.H. Hamid Fahmy Zarkasyi, M.A.Ed., M.Phil., as the Rector of Darussalam Gontor University, along with his entire staff.
3. Al-Ustadz Haris Setyaningrum, M.Sc., as the Dean of the Faculty of Science and Technology at Darussalam Gontor University, along with his staff.
4. Al-Ustadz Dihin Muriyatmoko, M.T., as the Head of the Informatics Engineering Program.
5. Al-Ustadz Widya Kurniawan, M.Kom., and Al-Ustadz Dihin Muriyatmoko, M.T., as the Supervisors for this thesis.
6. Mr. Ira Setiawan, the expert consultant, provided valuable data and insights throughout this research.
7. All lecturers and staff of the Informatics Engineering program who have continuously supported the completion of this thesis.
8. Fellow researchers, especially the 2021 cohort of Informatics Engineering students, who have been supportive and collaborative throughout this thesis process.
9. My parents have always provided unwavering support and prayers throughout the completion of this thesis.
