AUTHORIZATION	ii
STATEMENT OF ORIGINALITY	iii
ABSTRACT	iv
ABSTRAK	v
TABLE OF CONTENT	vi
TABLE OF FIGURE	ix
LIST OF FIGURES	x
CHAPTER 1 INTRODUCTION	1
1.1. Background.....	1
1.2. Problem Formulation	2
1.3 Research Objectives	2
1.4. Problem Limitation	3
1.5 Research Benefits	3
CHAPTER 2 LITERATUR REVIEW	4
2.1. Previous Research	4
2.1.1. Nastika Sari, Siti Wahyuningsih, Warananingtyas Palupi,Program Studi PG-PAUD, Universitas Sebelas Maret 2021	4
2.1.2. Edi Junaedi, Fithri Wulandari Year 2021	4
2.1.3. Faisal Reza Pradhana, Jumhurul Umami, Raka Umri Dreftanta, Year 2022	4
2.1.4. Faisal Reza Pradhana, Triana Harmini, Hanifa Ramadhani Ayuningrum.S Year 2023.....	5
2.1.5. Ahmad Ade Alfian, Ahmad Rizal Efendi, Big Efendi, Big Daya Yudha Asmara Year 2023	5
2.2. Supporting Theory	7
2.2.1. Hijaiyah.....	7
2.2.2. Augmented Reality.....	7
2.2.3. Unity 3D.....	7
2.2.4. Educational Games.....	8
2.2.5. Marker Based Tracking	8
2.2.6. Blender.....	8
2.2.7. Android	8

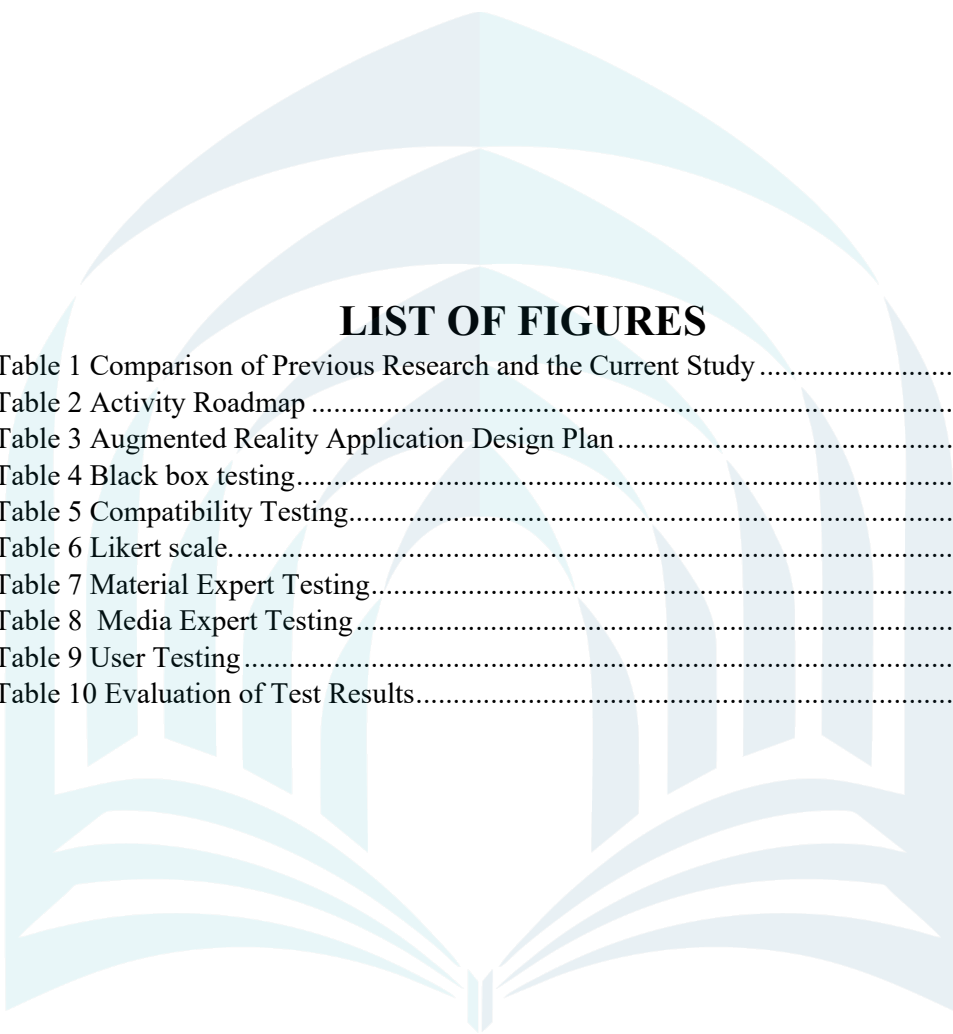

2.2.8. Vuforia SDK	8
2.2.9. MDA Framework	8
2.2.10 TK IT CAHAYA HATI	9
CHAPTER 3 RESEARCH METHODOLOGY	10
3.1. Time and place of research.....	10
3.2. Research Materials and tools.....	10
The following materials and resources are required for this research:.....	10
3.2.1. Hardware Components	10
3.2.2. Software Components:	10
3.3. Methods	11
3.3.1. Implementation Mechanics	11
3.3.2. Implementation Dynamics.....	12
3.3.3. Implementation Aesthetics	12
3.4. Research Stages.....	12
3.4.1. Requirements.....	13
3.4.2. Design	13
The design was created to illustrate the system before application development. This design process provides a visual representation of how the application will function. The system flow is outlined using a flowchart and a design mockup. The application's design is detailed in Table	13
a) Splash Screen.....	21
b) Main menu.....	22
d) Game Page.....	23
The "Ayo Cari Aku!" page directs the user to a game. This game involves matching hijaiyah letters with similar shapes found in the surrounding environment. The design of the "Ayo Cari Aku!" page is shown in Figure 12.....	23
3.4.3. Implementation	25
The software used for programming was Visual Studio Code, and the Blender application was utilized to create 3D animations.	25
3.4.4. Verification	25
3.4.5. Maintenance	26
CHAPTER 4 RESULTS AND DISCUSSION	27
4.1. Results of Application Design.....	27
4.2 Description of Application Features.....	27
4.2.1 Splash Screen	27
4.2.2 Main Menu Page	28

4.2.3. Information Page	28
4.2.4. How to Use Hijaiyah AR Page	29
4.2.5 AR Hijaiyah Page.....	30
4.2.6 Game Instructions Page.....	30
4.2.7 Game Level 1 Page	31
4.2.8 Pause Page.....	32
4.2.9 Game Level 2 Page	32
4.2.10 Game Level 3 Page	33
4.2.11 Game Final Score	34
4.3 Results of Application Testing	34
4.3.1 Black Box Testing	34
4.3.2 Compatibility Testing.....	35
4.3.3 Acceptability Testing	36
4.2.4. Discussion of Application Development	39
4.2.5. Evaluation of Test Results	39
CHAPTER 5 COVER.....	41
5.1. Conclusion	41
5.2. Advice.....	41
