

TABLE OF CONTENTS

SUPERVISOR DECISION LETTER.....	i
AUTHORIZATION.....	ii
DECLARATION	iii
ACKNOWLEDGEMENT	iv
ABSTRACT	vi
TABLE OF CONTENTS.....	viii
LIST OF TABLES	x
LIST OF IMAGES.....	xi
CHAPTER I INTRODUCTION	1
1.1. Background of the Study.....	1
1.2. Problem Statement.....	3
1.3. Scope and Limitations.....	3
1.4. Objectives of the Study	4
1.5. Significances of the Study.....	4
CHAPTER II LITERATURE REVIEW	5
2.1. Biomass	5
2.2. Conversion Technology of Biomass.....	7
2.3. Pyrolysis.....	9
2.4. The Effect of Pyrolysis Temperature.....	10
2.5. The Effect of Pyrolysis on Types of Biomasses.....	11
2.6. Test of The Physical and Chemical Characteristics from Biochar	11
2.6.1. Fourier Transform Infra-Red (FTIR)	12
2.6.2. <i>Scanning Electron Microscope – Energy Dispersive X-Ray Spectroscopy</i> (SEM-EDX).....	12
2.6.3. Brunauer Emmett Teller (BET)	13
2.7. Biochar	13

2.8. Bio-oil	14
2.9. Synthetic Gas.....	15
2.10. Bamboo	15
2.11. Previous Research.....	17
2.12. Maqasid Syariah	28
CHAPTER III RESEARCH METHODOLOGY	30
3.1. Time and Place of Research	30
3.2. Research Tools and Materials	30
3.3. Research Procedure.....	30
3.3.1. Preparation of Materials (Pretreatments)	32
3.3.2. Pyrolysis	35
3.3.3. Biochar Analysis.....	37
CHAPTER IV RESULTS AND DISCUSSION	42
4.1. The Effect of Temperature on Pyrolysis Products.....	42
4.2. Characteristics of Biochar	44
4.2.1. FTIR Analysis Results of Biochar from Bamboo Waste Pyrolysis Process	44
4.2.2. Chemical Composition of Biochar from Bamboo Waste.....	46
4.2.3. Surface Morphology Structure of Biochar	47
4.2.4. Characterization of Biochar Surface Area.....	48
4.3. Implementation of Biochar as a Heavy Metal Adsorbent	49
4.3.1. Preparation of Standard Curve Lead Solution (Pb)	49
4.3.2. The Effect of Different Pyrolysis Temperatures with heavy Metal Concentrations on Absorbance	51
4.3.3. Significance of Biochar absorption Capacity on Heavy Metal Pb	55
CHAPTER 5 CONCLUSIONS	58

5.1. Conclusions	58
5.2. Advice	58
BIBLIOGRAPHY	59
ATTACHMENTS	69
1. FTIR Analysis Report	69
2. SEM-EDX Analysis Report	70
3. BET Analysis Report	71
4. Research Documentation	72

LIST OF TABLES

Table 1. Various uses of biomass based on its sources.....	6
Table 2. The chemical component content of several biomass in Indonesia	16
Table 3. Previous research about pyrolysis	18
Table 4. Chemical composition of biochar from the pyrolysis process of bamboo waste	46
Table 5. BET test results on biochar	49
Table 6. Results of absorbance measurements on preparation of standard curve	50
Table 7. The performance of the standard curve from pb metal solution.....	50
Table 8. Absorbance of biochar on lead (Pb)	52
Table 9. Statistical description of the absorbance of Pb solution in Spectrophotometry	53
Table 10. Levene's Test of Equality of Error Variances ^{a,b}	53
Table 11. Tests of Between-Subjects Effects	54
Table 12. Multiple Comparison of Biochar	55
Table 13. Multiple Comparison of Concentrate	55
Table 14. BNT concentration notation.....	56
Table 15. BNT Biochar Notation.....	57

LIST OF IMAGES

Image 1. Three main categories of biomass conversion technology selection	8
Image 2. Mechanism utilization of biochar as a soil fertilizer	14
Image 3. Research flow	311
Image 4. Preparation of bamboo waste sample	32
Image 5. Parameter for testing bamboo waste characteristics.....	33
Image 6. Tube Furnace Pyrolysis Reactor	36
Image 7. Biochar Analysis	37
Image 8. Flow of the heavy metal adsorption test process	40
Image 9. The effect of temperature on the yield of biochar, bio-oil, and syngas.....	43
Image 10. FTIR analysis results on Bc300, Bc400, and Bc600	45
Image 11. The surface morphology structure of biochar as tested by SEM on Bc300 (top left), Bc400 (top right), and Bc600 (bottom)	48
Image 12. Standard curve graph of the lead solution	50
Image 13. Graph of the average UV Absorption on the solution with concentration variations of 100 ppm, 200 ppm, and 300 ppm.....	56
Image 14. Graph of the average UV absorption in the Pb heavy metal solution that has been interacted with biochar Bc300, Bc400, Nc600	57
