Through its various programs, BAZNAS Bojonegoro strives to contribute to sustainable development in its region.

This study research objective to analyze the programs of zakat distribution by BAZNAS Bojonegoro Regency and analyze how its distribution supports the achievement of the Sustainable Development Goals.

Based on the research results, it can be concluded that the activity programs of BAZNAS Bojonegoro Regency contribute to the achievement of the SDGs through its various programs. These programs include Bojonegoro Genius (scholarships for underprivileged students), Bojonegoro Produktif (empowering businesses with capital and training), Bojonegoro Agamis (Islamic religious education and zakat awareness), Bojonegoro Energik (improving public health through prevention and assistance), and Bojonegoro Philanthropist (promoting a sharing lifestyle and assisting vulnerable groups). BAZNAS Bojonegoro supports the Sustainable Development Goals (SDGs) through various programs: Bojonegoro Genius (SDG 4), Bojonegoro Produktif (SDG 1, SDG 8, SDG 9), Bojonegoro Agamis (SDG 16), Bojonegoro Energik (SDG 3), and Bojonegoro Philanthropist (SDG 1, SDG 2, SDG 11).

Based on the research findings, this theory emphasizes the integration of economic, social, and environmental dimensions in development efforts, which is reflected in the various BAZNAS programs studied. Furthermore, it is recommended that BAZNAS Bojonegoro needs to enhance the effectiveness of its programs through periodic evaluations, monitoring, and assessment as well as strengthen cooperation with various stakeholders. Budget efficiency analysis and long-term research are also necessary to measure the impact of the programs.
