

## ABSTRACT

### ANALYSIS OF SHARIA PHARMACEUTICAL SERVICE AT RS PKU MUHAMMADIYAH TEMANGGUNG

**Sarah Ikbaar Noverizka**

Indonesia has the largest Muslim population in the world, with over 207 million Muslims, reflecting a high demand for halal services, including in the health sector. In this context, the implementation of Sharia Pharmaceutical Services represents a strategic innovation to ensure that pharmaceutical practices align with Islamic law. This study analyzes the implementation and quality of Sharia Pharmaceutical Services at RS PKU Muhammadiyah Temanggung. A descriptive qualitative method was used with purposive sampling, involving pharmacists, pharmacy technicians, members of the Therapeutic Committee, and the Sharia Committee. Data collection methods included in-depth interviews, document reviews, observations, and evaluation checklists based on MUKISI and DSN-MUI standards. Thematic analysis was employed, and service quality was assessed using Likert scales, binary scoring, and percentage conversions. The findings show that Sharia Pharmaceutical Services are well-integrated into hospital operations and policies. This includes Sharia-based drug selection, documentation of haram and najis substances, informed consent aligned with Islamic ethics, religious messages in pharmaceutical documentation, and routine Islamic education for staff. Performance indicators revealed high levels of implementation: formulary compliance (90%), completeness of documents (83.33%), and implementation by personnel (98.19%). These results demonstrate that Sharia Pharmaceutical Services are not merely symbolic but are embedded in management systems, SOPs, and human resource development. The collaboration between the Sharia and Therapeutic Committees has enhanced regulatory compliance and service quality. RS PKU Muhammadiyah Temanggung exemplifies how Islamic values can be harmonized with modern healthcare for Sharia-based healthcare governance both nationally and globally.

**Keywords:** sharia pharmacy, hospital policy, halal medicine, islamic healthcare, pharmaceutical services.

## ACKNOWLEDGEMENT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللَّهِ وَبَرَكَاتُهُ

الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ

Praise and gratitude be to Allah SWT for His mercy, guidance, and blessings, through which the author has been able to complete this thesis entitled “Analysis of Sharia Pharmaceutical Services at RS PKU Muhammadiyah Temanggung.” This thesis is submitted as a requirement to obtain a Bachelor's degree in the Pharmacy Study Program, Faculty of Health Sciences, University of Darussalam Gontor.

The process of preparing this thesis has been a long journey filled with challenges, both technically and academically. However, through the guidance, support, and assistance from various parties, those obstacles have been overcome. Therefore, the author would like to express her deepest gratitude to:

1. Prof. Dr. Hamid Fahmi Zarkasyi, M.A., M.Phil., as Rector of the University of Darussalam Gontor; Dr. Abdul Hafidz Zaid, M.A., as Vice Rector I; Dr. Setiawan Bin Lahuri, M.A., as Vice Rector II; Dr. Khoirul Umam, M.Ec., as Vice Rector III; and Royyan Ramdhani Djayusman, Ph.D., as Vice Rector IV of the University of Darussalam Gontor.
2. apt. Amal Fadholah, S.Si., M.Si., as Dean of the Faculty of Health Sciences, for providing facilities and continuous support throughout the thesis preparation process.
3. apt. Nadia Iha Fatihah, M.Clin.Pharm, as Head of the Pharmacy Study Program, Faculty of Health Sciences, University of Darussalam Gontor, for her guidance and motivation throughout the course of study.
4. apt. Amal Fadholah, S.Si., M.Si., and Mahmud Carica Dewi, M.Pharm., as thesis advisors, for their patience, valuable guidance, feedback, and constructive criticism during the research and writing process. Gratitude is also

extended to apt. Kurniawan, M.Farm., as the thesis examiner, for his insightful suggestions and critical input that helped improve the quality of this work.

5. My beloved parents, Mochamad Andiawan and Sri Sundari, thank you for your endless sacrifices and prayers, your unwavering support, and motivation both emotionally and materially that have accompanied me every step of the way. Your sincere love has been the main source of strength throughout this journey. Special thanks to my sister, Marsha Ikbaar Noverizka, and my three younger siblings, Rahmalia Ikbaar Ghenadien, Rofi' Nafi'ah, and Rosyidah Syiami Wulandari, who always pray for my success and well-being.
6. All respondents and the management of RS PKU Muhammadiyah Temanggung for granting permission and assisting during the research process.
7. The National Amil Zakat Agency of the Republic of Indonesia (BAZNAS RI), which has provided financial support for this research. The author hereby declares that this research was funded and conducted with financial assistance from BAZNAS RI.
8. All parties who cannot be mentioned individually but have directly or indirectly contributed to the completion of this thesis.

The author realizes that this work is still far from perfect. Therefore, constructive criticism and suggestions are highly appreciated for future improvements. It is hoped that this thesis will be beneficial, particularly in the field of pharmacy with a focus on natural-based practices, and may serve as a reference for future research. Finally, the author sincerely hopes that this effort receives the pleasure of Allah SWT and becomes a source of goodness for all involved.
